Attention is also given to how the policies of primary care, small groups, continuity of care, individualization of care, culturally responsive care, and inclusive care of children with special needs provide the foundation for high quality infant/toddler care. At the end of this module, participants will have the tools to use primary care in their home or classroom, make an engaging environment, assist children in daily routines, and individualize care for all children.

The session explores senses beyond the basic five, including the tactile sense of Deep Touch Pressure, as well as the Vestibular Sense, (movement registered within the head) and the Sense of Proprioception, (input to joints and muscles). MINDFUL MUSIC (SELF-REGULATION THROUGH MUSIC)

When: November 3rd 6:00pm to 9:00pm

Where: Virtual Via Zoom

Cost: \$10

Trainer: Maryann Harman

Hours: 3 Clock Hours

CDA Content Area: 2, 3, & 8

In order to develop into a well functioning adults, children must learn how to self regulate. How are you supposed to learn if you cannot self regulate? When too much focus is put on getting cognitive skills in too early, our little ones cannot learn and much of the knowledge we are putting out is not absorbed properly. It is through the ability to control our bodies that we learn to sit and listen as well as when to move and how to do so appropriately with awareness of those around us. Using a combination of music, movement, yoga and breathing techniques, this workshop shows ways to help children learn to control their bodies whether it be to energize, focus or calm.
